

Never give up

Other half, by Lina Kalcheva, is about a modeling clay man named Ren. Ren wants love and goes pray in front of a fountain. On the fountain, he finds a stone with a drawing. It says to go a long, long way to find a door, and after the door, love. After that, he meets lots of single modeling clay people. Will he find love?

My favourite character is Ren because he is cute, brave and funny. The film shows you should never give up and go on the way to your dreams.

The film is good for students because it is funny and the graphics are cool.
